

A consistent and reliable crimp connection is the direct result of a Quality Controlled Termination Set consisting of: The Coaxial Cable, Connector, Stripper, Crimp Tool and precision Die Set. Canare offers a complete turnkey Assembly Package. There is no tooling guesswork... the only surprise is how quick and easy it is to terminate your own cables.

R5A Storage Road Case

Low cost, lightweight yet rugged, holds:

- (1-2) TC-1 hand tools
- (5) TCD crimp die sets
- (100) Canare BNC, F or RCA crimp plugs
- (1) TS100E or, (3) TS-C Stripping tools
- Misc. adapters, replacement blades, rulers, etc.

Buyer Beware:

There are other products available that may look similar to the Canare TC-1 Hand Crimp Tool & TCD Die Sets, but they may not meet the same high quality standard and will not perform to our strict specifications.

TC-1 Hand Crimp Tool

- Interchangeable die sets
- Scissor ratchet action
- Emergency release lever
- Adjustable crimp force via drag washer
- Hardened Swedish Steel construction
- Rated at 50,000 dura-cycle lifespan

TCD Die Sets

- 2 piece precision fit design
- 2 Hex Bolts for quick hand tool loading
- Tight dimensional tolerances
- 1 and 2 Hex Sleeve versions
- Engraved Model I.D.

TS-SERIES COAXIAL CABLE STRIPPERS

Stripping & prepping coaxial cable for Canare's true 75Ω BNC, F and RCA Crimp Connectors, is now simple, quick and easy. No more hassles working with awkward razor blades or difficult-to-use straight edge tools. Our TS-Series dramatically reduces assembly time when compared the most other commonly used methods.

You simply "insert the cable, rotate and remove". Completes the job in just 15 seconds! All models have 3fully-adjustable circular steel blades, specially designed and hardened to precisely cut "around" the cable...not chop through it like utility knives or ordinary wire strippers. Our innovative side-slit blade allows you to carefully peel off the jacket for constant and productive cable prep.

TS100E *5 in 1* Coaxial Cable Stripper

- Quick & Easy-to-use hand tool
- Rotary Knob selects 5 different cable set-ups
- 3 Circular Steel Blades Cut cleanly & precisely
- Blade height is fully adjustable, wrench included
- Special extra "side-slit" jacket blade
- Unique V-Guide aligns coax in center of chamber
- 5 Factory pre-sets...or, create your own settings
- TSC Blade Cassette
- Replaceable circular steel blade pack

MODEL SELECTION	
Model	Max. Cable O.D.
TS100E	.158in - .433in (4mm - 11mm)
TS-V3C	.197in (5.0mm)
TS-3C	.236in (6.0mm)
TS-4C	.256in (6.5mm)
TS-31C	.291in (7.4mm)
TS-5C	.327in (8.3mm)

Strip Lengths all Models (mm)

TS100E

TS-4C

TS-C Coaxial Cable Strippers

- 3 Circular Steel Cutting Blades
- 'Side Slit Blade' for easy peel jacket
- Blade height fully adjustable

TS-3C

TS-5C

TS-V3C

1 Insert end of cable into the stripper.

2 Rotate the stripper.

3 Press down lever and pull out cable.

4 Peel off jacket & you're ready to crimp!

Application note: All stripper models are pre-set for use with Canare BNC, F and RCA Crimp Plug dimensions only.
