CODEX

CAPTURE DRIVE® READER CDX-75013 | CDX-75013-2

DATASHEET

MAKING YOUR WORK FLOW

The Codex Capture Drive Reader (Thunderbolt), when licensed with Codex Production Suite provides an entire dailies and archiving system. With a Thunderbolt interface, it allows you to quickly clone your camera original data from a Codex Capture Drive to internal or external storage on your Mac Pro or MacBook Pro or to networked attached storage. The CDX-75013-2 with Thunderbolt 3 offers the fastest transport to offload media.

THUNDERBOLT™

CAPTURE DRIVE READER HIGHLIGHTS

Make verified copies of camera original data from Codex Capture Drive® media.

Familiar task-based Codex Vault Platform™ user interface.

Check, adjust and add metadata using Codex Vault Media Tools.

Archive to disk or tape using Codex Archive™.

Generate metadata files such as .xml or .ale.

Transcode to a wide range of deliverables.

Create burn-ins and apply look-up tables where needed.

Sync metadata with Codex Backbone™ with full reporting.

CODEX PRODUCTION SUITE™ v4.5 WORKFLOW
